

ROHIT SARKAR

sarkarrohit650@gmail.com | +91 98746 30970 | Bengaluru / Kolkata, India

[linkedin.com/in/rohit-sarkar](https://www.linkedin.com/in/rohit-sarkar) | github.com/Rohit-Sarkar55 | leetcode.com/u/Tyfoon | rohit-sarkar55.github.io/Portfolio_static

TECHNICAL SKILLS

Languages: Java, Python, C/C++, JavaScript, TypeScript, HTML, CSS

Frameworks: Spring Boot, Spring AI, Spring Security, Angular, React, Node.js, FastAPI, Kafka

Databases: PostgreSQL (EXPLAIN ANALYZE, query optimisation, indexing), MySQL, TimescaleDB

Cloud / DevOps: AWS (EC2, S3, RDS, IAM, CloudWatch), Docker, Jenkins, CI/CD, Git, GitHub

Testing: JUnit, Mockito, Postman, Insomnia, SoapUI, Browser DevTools

Concepts: Microservices, Distributed Systems, REST APIs, Object-Oriented Programming, System Design, DSA, Multithreading, OAuth2, HIPAA, Agile/Scrum, Code Review

EXPERIENCE

Software Engineer / Full Stack Developer

Nov 2023 – Present

Deloitte, Bengaluru

- Architected **10+ production microservices and RESTful APIs** for enterprise healthcare claims processing, boosting operational efficiency by **30%** and maintaining **99.9% data integrity** across distributed systems.
- Reduced database query latency by **40%** via PostgreSQL/MySQL EXPLAIN ANALYZE, composite indexing, and schema tuning; extended time-series analytics to **TimescaleDB**.
- Deployed and managed services on **AWS (EC2, S3, RDS)** with CI/CD pipelines; enforced least-privilege **IAM** roles and leveraged **CloudWatch** for real-time monitoring and bottleneck resolution.
- Integrated **Spring AI and machine learning models** for fraud-risk scoring and anomaly detection, cutting manual review by **20%**; secured APIs with **Spring Security and OAuth2** for full HIPAA compliance.
- Built **Kafka** event-driven pipelines reducing validation errors by **25%**; resolved **50+ production defects** through systematic debugging with browser DevTools and API testing tools.
- Achieved **85%+ code coverage** via 200+ JUnit/Mockito unit and integration tests, reducing defects by **15%**; led code reviews, defined API contracts and service boundaries, and mentored junior engineers.

Technical Content Writer Intern

Dec 2022 – Jul 2023

GeeksForGeeks, Remote

Authored 20+ top-read articles on data structures, algorithms, and system design (graphs, dynamic programming, database internals) with complexity analysis – referenced by thousands of FAANG interview candidates.

Full Stack Developer Intern

Jan 2023 – Mar 2023

Full Creative, Chennai

Built 3 cross-platform desktop productivity apps using Electron JS, Node.js, TypeScript, and Excel integrations, reducing manual reporting time; delivered responsive UI/UX within Agile sprint deadlines.

PROJECTS

URL Shortener API – FastAPI, Docker, REST

github.com/Rohit-Sarkar55/URL-Shortener

RESTful short-URL service with redirect handling, input validation, duplicate detection, and expiry logic; containerised with Docker for horizontally scalable, production-ready deployment.

Keeper App – Full Stack Notes Manager – React, Node.js, Vercel

my-keeper-eta.vercel.app

Full-stack CRUD notes application with React hooks, persistent state management, reusable component architecture, and automated CI/CD deployment via Vercel.

Simon Game – JavaScript, HTML, CSS

rohit-sarkar55.github.io/Simon-Game

Progressive-difficulty browser memory game with real-time audio/visual feedback, high-score tracking, and smooth state transitions demonstrating DOM manipulation and event-driven programming.

COMPETITIVE PROGRAMMING AND ACHIEVEMENTS

LeetCode Knight – Rating 1951, Top 3% globally | Global Rank 451 (Weekly Contest 329) | 1000+ problems solved across LeetCode, CodeChef, Codeforces, and GeeksForGeeks

Contest Rankings: CodeChef 4-Star (1856) | Codeforces Pupil (1260) | Google Kick Start 2022 Round B – Global Rank 2036 | Meta Hacker Cup 2022 – Qualified Round 2, Rank 2711

EDUCATION

Bachelor of Technology, Computer Science Engineering

2019 – 2023

St. Thomas' College of Engineering and Technology, Kolkata

CGPA: 9.06 / 10.0

CERTIFICATIONS

Programming Fundamentals – Duke University, Coursera | Data Structures and Algorithms using Python – NPTEL | MERN Stack Web Development – Udemy | AI Fluency: Framework and Foundations – Anthropic
